About the Plant Fairs Roadshow

We are a collective of specialist nurseries who organise and promote Plant Fairs in the South East. We always offer a wide range of locally grown, garden worthy and often unusual plants. As expert growers and associated organisations we aim to create memorable gardening events at some of the best gardens and venues in our region. This is a great opportunity to buy direct from the grower and get free advice from our resident Plant Doctor. Refreshments are available at most venues making for a great trip out.

Plastic Bags

All our nurseries are working hard to reduce the environmental impacts of their activities. Please help us by bringing your own reusable bags wherever possible.

Timed Entry Admission

We expect to continue timed entry ticketing at many events this year. This innovation not only helped keep visitors and nurseries safe but by managing numbers it also helped us reduce queues and improve the service each of our experts could offer. **Please check if you need to pre-book to avoid disappointment on the day.** Most admission fees include access to both the fair and the garden (but some events require an additional garden entry fee).
